Buckenara Plumbing & Gas (BPG) is a family run business. We are here to help and guide you through your plumbing and gas fitting needs. Feel free to get in contact with us at anytime. We would be thrilled to hear from you!

Buckenara Plumbing offers a range of services from repairs to installations

BPG offer a reliable, upfront & professional plumbing and gas fitting service at a fair price. We love servicing our local community and are here to help wherever we can.

Services offered at BPG

Andrew Buckenara, Director of BPG has been involved in the hydraulic & plumbing industry for over 15 years. As a licensed plumber and gas fitter he has worked as a plumbing consultant, project manager, plumber, site manager, leading hand, estimator & contract administrator. This exposure in both the practical and design sectors of the industry ensures that we can confidently provide clients with advice that not only meets the requirements of the plumbing and gas regulations but also ensures our client is getting the most cost effective solution.

BPG has a very clear focus to build strong relationships with our clients to ensure that we are working in the most collaborative and transparent way to avoid unnecessary disputes all too often seen in the industry these days. A real stigma in the industry which we are keen to change.

Our vision is to provide a level of care where it is well known that we go above and beyond to service our clients needs, be known as a good team player and become the 'Plumbing Contractor of Choice'. If we can give back to the local community along the way and provide individuals the opportunities to develop within our business, then that is what we are all about at Buckenara Plumbing & Gas.

We would be thrilled to hear from you should you wish to engage our services.
