FEATURE FENCING

COMPANY INFORMATION

Feature Fencing is a West Australian company providing quality fencing and gates for home, commercial or industrial applications.

Unlike other fencing companies we do not use pre-created fencing - every one of our jobs is custom designed to suit the need and specifications of our client.

Whether you are looking to increase security of your home or business, install a pool protection fence, or simply want to add some style and class to your home, Feature Fencing can offer an affordable and attractive solution.

We are committed to service and quality and ensure our work always exceeds our clients' highest expectations. We offer punctual, free quotations to all areas.

MANUFACTURING AND QUALITY

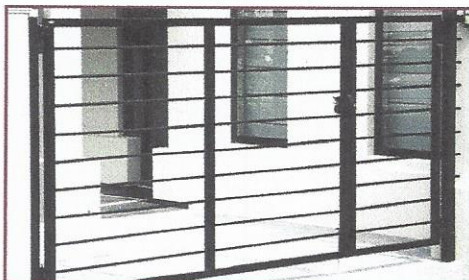

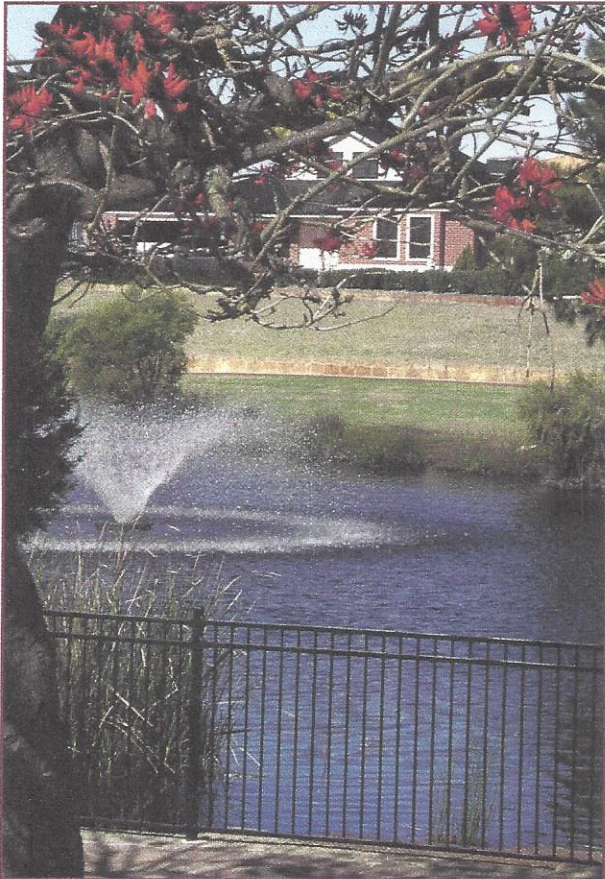

- We manufacture and install quality fences with the strength and style of locally produced galvanized steel & aluminium. We offer personal one-on-one contact with all our clients & we can assist you with your design & colour ideas.
- Our fences are powder coated in a colour of your choice and for those that live in close proximity to the sea we recommend hot dip galvanizing or epoxy priming which provides an added protective coating and will increase the durability.
- Our pool gates are fitted with self closing hinges and a magna latch, which is fully key lockable and very safe.
- We guarantee that we are compliant with all new West Australian pool and spa regulations (AS1926.1)
- We offer a complete range of high quality accessories including hinges, locks, latches, swing and sliding motors. We can fabricate and install just about anything to customers individual specifications.

**FEATURE FENCING PRIDES ITSELF ON QUALITY WORKMANSHIP
RELIABILITY & PUNCTUALITY**
