# Experts in Strata Services & Repairs

Does your strata complex look tired or in need of maintenance or repairs, no long term schedules in place?

SQU^DRON Building Services can provide a comprehensive range of strata building maintenance services to keep your complex safe, secure and looking its absolute best. To achieve this SQU^DRON can do a benchmark survey (AS4349.0) outlining your complexes upcoming needs and develop a maintenance plan and service any issues that arise from time to time.

The key to successful project outcomes is a partnership between strata property owners, managing agents and property managers working closely with SQU^DRON, offering a maintenance management plan to keep you covered 7 days a week.

SQU^DRON provides exceptional standards of communications and workmanship for all our clients big or small, delivering projects on-time, on-budget at competitive rates and in accordance with Australian health and safety regulations.

The guys at Squadron were prompt, on task, great line of communications and their workers were well supervised, resulting in jobs being completed as expected. How often does that happen?

***DK of Kingsley***

I was very pleased to learn of a company now that can take the load off us Strata owners. A small weekly fee for a great service is worth the peace of mind.
